

(A) Track: Before starting this quiz, please watch the lecture called (A) ICO Investment Research Quiz

Question #1:

When researching ICOs or any cryptocurrency, which item below is important to research?

- 1 The management team.
- 2 The developer community involvement (if available).
- 3 The likely maximum long-term supply of the cryptocurrency.
- 4 What is the purpose of the cryptocurrency and how it differs from other cryptocurrencies.
- 5 What the risks are of with investing in the cryptocurrency.
- 6 The whitepaper (if available).
- 7 All of the statements above are true.
- 8 None of the statements above are correct.

Please answer the question above by selecting one answer. The answers are at the bottom of this PDF document. Thanks

Question #2:

Which statement below is true when it comes to listening to others giving their opinions on what cryptocurrencies to buy?

- 1 *If someone has more experience than you do with investing in cryptocurrencies, only listen to them and don't bother doing your own research.*
- 2 If the CEO of a large bank gives their opinion on the viability of a cryptocurrency, then just accept their opinion as they are not biased and they have your best interest in mind.
- 3 If a confident Social Media self proclaimed expert tells you to buy a cryptocurrency, then you should trust this person and not bother doing your own research.
- 4 If the founder of a cryptocurrency company tells you that their cryptocurrency has much better prospects than other cryptocurrencies, you should agree and buy it ASAP!
- 5 If I tell you to buy a cryptocurrency, then you should not bother doing your own research and just buy it.
- 6 You should always always always always always always always always always always always do your own research before buying any cryptocurrency.
- 7 All of the statements above are true.
- 8 None of the statements above are correct.

Please answer the question above by selecting one answer. The answers are at the bottom of this PDF document. Thanks

Question #3:
